2013 DDAA GIS Users Meeting

A p r i l 2 3 , 2 0 1 3

G r e e n v i l l e , S o u t h C a r o l i n a

A **FREE** one day GIS event is being hosted by DDAA prior to the 2013 National Rural Transportation/ NADO EDFs Peer Learning Conference at the Hyatt Regency in Greenville South Carolina. Come meet your peers and learn from other district staff as they share their experiences with geospatial technologies!

Current session topics include:

- *Python For Dummies
- * Cadastral Standards and You
- * NHD Stewardship
- * Parcels: What's Your Perspective?
- * Regional Gov't. GIS Strategies from ESRI

R E G I S T R A T I O N D E A D L I N E

APRIL 15, 2013

(Yes it's really free.)

Rooms are very limited and may not available at the Hyatt Regency Greenville. Click here for Hyatt Reservations. For additional lodging contact the Holiday Inn Express & Suites at 864-678-8000 and ask for Danita Flowers and the NADO group rate of \$139.99. This rate will be available until April 1.

For questions or issues regarding lodging, contact Vicki Glass at 202.624.8574.

To register for the GIS meeting visit www.ddaa-ldd.org.

For additional information or questions contact Bret Allphin at bretallphin@buckeyehills.org, 740-374-9436.

CONFERENCE SESSIONS

I Use Python and I'm a Dummy

Damon Leonhard from the City of Dublin, Ohio taught himself the basics of Python over a six month period in order to show attendees of the 2012 Ohio GIS Conference a few useful and cool tricks to help improve productivity. If he can do it, so can you!

Damon Leonhard - City of Dublin GIS, Dublin, Ohio

Parcels: What's Your Perspective

Parcels are an important data layer in many GIS activities undertaken by LDDs, local governments, and other regional partners. Come and learn first hand about land records technologies, their development, and current trends of use from a nationally renowned expert and member of the FGDC Cadastral Subcommittee, Dr. Nancy von Meyer. You'll also hear about a recently completed pilot project in rural Ohio which applied these standards and provided lessons for rural counties considering parcel development.

Dr. Nancy von Meyer, Fairview Industries, Pendleton, South Carolina

Tom Fisher, Muskingum Watershed Conservancy District, New Philadelphia, Ohio

Lunch with GeoJeopardy!!

Strategies for Regional Organizations

As LDDs work to provide services to constituents, questions often arise such as; how can a regional planning organization expand it's GIS service offerings; how can regional organizations access GIS capabilities even if they lack GIS staff; and how can GIS be used to promote inter-regional collaboration among organizations? Get answers to these questions and more as we get the latest updates from ESRI.

Mike Dyer, ESRI, Charlotte, North Carolina

NHD Development and Maintenance in Your State

This session will give attendees a perspective on why the National Hydrography Dataset is important to local governments and regional organizations, and why your organization may want to consider participating in stewardship activities

Joe Sewash, NC Center for Geographic Information and Analysis, Raleigh, North Carolina

LDD GIS Staff Group Discussion

Come prepared with ideas, as we discuss future GIS offerings on behalf of the DDAA.

Also come prepared to volunteer and be involved with the programming of future DDAA GIS events!
